Resolutions:

- 1) As per the decision taken in Joint Board of Studies, it is resolved to go in line with other branches for the subject Engineering Chemistry in I/IV B. Tech. II semester.
- 2) Resolved to offer Physical Chemistry in place of advanced course in I/IV B. Tech. II semester.
- 3) Resolved to offer Engineering Chemistry Laboratory which is common to all branches in I/IV B. Tech. II semester.
- 4) Resolved to offer Introduction to Chemical Engineering in place of introductory core engineering course in I/IV B. Tech. II semester and the syllabus is modified as suggested by the experts.
- 5) Structure for II/IV, III/IV and IV/IV B. Tech. Chemical Engineering and M. Tech. Biotechnology was discussed and the experts felt satisfactory about the same. The experts felt satisfactory with the increase of elective courses in M. Tech. Biotechnology. However, for Chemical Engineering they suggested that Fluid Mechanics course is renamed as Momentum Transfer, Fluid Mechanics laboratory is renamed as Momentum Transfer Laboratory, Mechanical Unit Operations course is

- renamed as Mechanical Operations and Mechanical Unit Operations Laboratory is renamed as Mechanical Operations Laboratory.
- 6) Prof. P.S.T. Sai (IITM, Chennai) felt that one Mass Transfer Laboratory is sufficient instead of two Mass Transfer laboratories I and II. Hence, Mass Transfer Laboratory – I of III/IV B. Tech. I semester is combined with Mass Transfer Laboratory – II of III/IV B. Tech. II semester and named as Mass Transfer Laboratory and will be offered in III/IV B. Tech. II semester.
 - 7) Dr. K.G. Sudarsan (Mylan Labs, Hyderabad) suggested that the elective courses relevant to the needs of the industry should be offered.
 - 8) Discussed about the electives offered at various levels and the committee felt satisfactory about the same. However, the Catalysis subject in elective – I will be offered in elective – II and the Pharmaceutical Technology of elective – II will be offered as elective – I. The Biochemical Engineering – I (under elective – III) will be renamed as Fundamentals of Biological Sciences and Biochemical Engineering – II (under elective – IV) will be renamed as Biochemical Engineering.

| 5. Prof S. V. Naidu | Member, Andhra University nominee |
| 6. Dr. A. Srinivasa Kumar | Member, Industry / Research |

Resolutions:

- 1) Structure for B. Tech. Chemical Engineering and Syllabus for I/IV B. Tech. Chemical Engineering I and II Semester were discussed and the experts felt satisfactory about the same.
- 2) Prof P.S.T Sai and Prof. S. V. Naidu felt that it would be good to students if Engineering Physics and Engineering Physics lab are shifted from I Sem to II Sem and English and Language lab are shifted from II Sem to I Sem.
- 3) The external members felt happy about the inclusion of "Biology for Engineers" which is a mandatory course in AICTE and APSCHE syllabus of Chemical Engineering. Prof S. V. Naidu informed the board that they also included "Biology for Engineers" in the curriculum of Dept of Chemical Engineering, Andhra University.
- 4) The committee felt that "Process Instrumentation" can be removed and combined with Process Dynamics and Control. They also felt that the load for students in final semester should be either minimized or the subjects in eighth semester can be shifted to seventh semester, so that students can focus on internships and projects.
- 5) The committee suggested to conduct an induction programme for one week before commencement of the I year class work.

Chairman BOS officially welcomed all the members for the first common BOS B. Tech CSE, B. Tech-IT and M. Tech-CST. He also informed the house, the absents of other members due to some unavoidable circumstances.

Anil Neerukonda Institute of Technology and Sciences (Autonomous)

(Affiliated to AU, Approved by AICTE, Accredited by NBA and NAAC with 'A' Grade)

Mr. S. Ratan Kumar, Assoc. Prof., Dept. of CSE, Mrs. B. Meena, I/c HOD- Dept. of IT and Mrs. Pritee Parvekar M. Tech coordinator, Dept. of CSE presented the draft curriculum of B. Tech CSE, B. Tech IT and M. Tech CST respectively. Members deliberated on the design of the curriculum for the first year based on resolutions taken on the joint board of studies of all departments and also the entire course structure. Following are the resolutions taken after a rigorous discussion/ debate among the members.

Suggestions form BOS for B. Tech CSE Curriculum:

- The teaching of C language should be interactive in nature comprising of explanation and practice. Members suggested having 'lab' for C language with 1 tutorial/ theory and 3 periods of practice with total of 3 credits. The lab should be named as "Introduction to Programming Language with C".
- Basic electronics Engineering to be brought to I year I Sem.
- Remove the title EDC and change the title of Basic Electronics Engineering Lab to "Digital Electronics Lab".
- Discrete Mathematical Structures to be placed in II year I semester.
- Rename the title of "Data structures" to "Data Structures and Algorithms" with some fundamental concepts of complexity analysis and basics of algorithms.
- Introduce OOPs through Java in II year I semester with JAVA Lab.
- Place "Computer Organization" to II Year II semester.
- Remove "System Programming" as no industry is now inclined to Assembly Programming.
- A specific course on "Data Communication" must be included for B. Tech CSE in one semester and "Computer Networks" should be in other higher semester.
- To encourage students in hardware parts committee suggested introducing a hardware lab in II year II semester in which student would develop understanding of internal parts of a system and would be able to assemble, de-assemble and troubleshoot a system at ease.
- Committee suggested including a course on web technologies which must be interactive in nature.
- An advanced course on computer architecture should be introduced in III year I semester and a text book by Hennessey & Patterson must be adopted.
- Change the title of "Case Tools Lab" to "Software Engineering Lab".
- Introduce "Object Oriented Analysis and Design" instead of "Data Warehousing and Data Mining" and suggested DWDM as an elective.
- "Security Engineering" title to be renamed to "Cryptography ad Network Security".
- Due to recent guidelines from UGC online course (MOOC) to be introduced in final year 2nd semester with credits. Department should identify the list of such courses and plan for assessment and encourage students to obtain certification for the same.

Anil Neerukonda Institute of Technology and Sciences (Autonomous)

(Affiliated to AU, Approved by AICTE, Accredited by NBA and NAAC with 'A' Grade)

- List of electives should be further enriched with few more recent technologies/ subjects. Students may be advised to create their interest in a particular domain by choosing all six electives offered in B. Tech CSE in successive semesters.

Resolution:

With the above modifications and suggestions the B. Tech CSE 4year complete structure are approved by BOS. However, any further modification can be taken up in next BOS meet.

Suggestions form BOS for M. Tech CST Curriculum:

- No changes made to electives list but suggested to have 2 electives each in each of the semester making two pools of electives that are connected to each other.
- High Performance Computing to move to I year II semester.
- Approved the idea of having Seminar and Technical writing in I year II semester.
- Due to recent guidelines from UGC online course (MOOC) to be introduced in 2nd semester with credits. Department should identify the list of such courses and plan for assessment and encourage students to obtain certification for the same.

Resolution:

With the above modifications and suggestions the M. Tech CST, 2year complete structure are approved by BOS. However, any further modification can be taken up in next BOS meet.

Suggestions form BOS for B. Tech IT Curriculum:

- Remove "Python Programming".
 - A specific course on "Data Communication" must be included for B. Tech IT in one semester (II year I semester) and "Computer Networks" should be in other higher semester.
 - Have "Computer Networks Lab" instead of "Data Communication & Computer Networks lab" in II year II semester.
 - Remove "Micro Processor and Interfacing" and its associated lab and introduce "Information System Design" course in place of these.
 - Place "Computer Graphics Lab" in II year II semester
 - Remove "Software Engineering" course from III year I semester.
 - Push "Unix and Network Programming" and its associated lab to III year I semester from III Year II semester.
 - Introduce "Mobile Computing" and "Mobile Computing Programming Lab" in place of Unix and Network Programming.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Minutes of the 5th meeting of the BOS, Department of ECE (UG) held on 30.03.2019 at 10. AM in the DSP lab with the following agenda.

1. To finalize the course structure of R-2019
2. To finalize the 1st year syllabus of R-2019
3. Any other item with the permission of the chair

The chairperson, Dr.V.Rajya Lakshmi, HOD, dept of ECE, ANITS welcomed all the B members present in the meeting. The Committee discussed the points given in the agenda submitted by the Dr.V.Rajyalakshmi and made the following recommendations/suggestions.

1. a) Prof. P. Ramakrishna Rao and Prof.K.Chandra Bhusahan Rao, expressed that Engineering is an extension of physics and it would be helpful to the students if course "Physics" studied in First year I semester rather than in II semester.
b) Prof.K.Chandra Bhusahan Rao suggested the course "Basic Electronics Engineering" should be in First year II semester
c) Prof.P. Ramakrishna Rao, expressed that it will be difficult to ensure maximum student participation in Mandatory non-credit course. Prof. V.Rajya Lakshmi replied that maximum student participation in any Mandatory non-credit course can be achieved through preparation of the timetable in such a way that Mandatory non credit course is placed between any other two credit courses.
d) Prof.K.Chandra Bhusahan Rao suggested the name of the "simulation lab" has to be very specific such that student's specific skills can be evident in their marks sheet for the purpose of getting into higher studies/placements.
e) Prof.K.MuraliKrishna, expressed that ICA Lab may be interchanged with AC & DC Lab. Analog Communications and Digital communications are covered in previous semesters.
f) Mr.G.Bhaskar, Avenel, expressed that "Speech processing" Professional Elective-3 can be interchanged with "WSN" in Professional Elective-5 as Speech processing required to be studied after Digital signal processing which is in Third year II semester.

i) Prof. K. Chandra Bhusahan Rao suggested that prescribed textbooks need to be followed by faculty and in order to ensure the same, it is advised to ask the faculty to submit coverage plan for the courses of all basic sciences in advance signed by head of department.

j) Prof. K. Chandra Bhusahan Rao expressed that physics syllabus is heavy and suggested the text book Halliday / Resnick, to be made as prescribed text book in the course ECE 122 (Physics) and to ensure redundancy of the contents is not present.

k) Prof. V. Rajya Lakshmi informed the members that in the course "Workshop" soldering and PCB Design are introduced keeping in view of ECE graduates and all members agreed that it is very essential to the ECE students in the current trend.

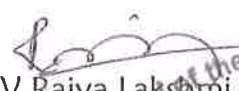

l) Prof. K. S. Ranga Rao, expressed that PCB design can be renamed as Layout design on PCB.

m) Prof. K. Murali Krishna, said that soldering can be done in the Electronic circuits Laboratory

n) Prof. P. Ramakrishna Rao, expressed that the faculty who are likely to teach course "Ethics" should have good communication skills.

The chairperson thanked all the members for their active participation and valuable suggestions. She informed that all modifications suggested will be incorporated in the proposed structure for curriculum regulations 2019 and sent to the members for their approval.

Mr. S. Balaramamurthy, proposed the vote of thanks.

21. Prof. G. Raja Rao (Chair person), Professor & HOD of EEE, ANITS.

1. The Chair person introduced the external BOS members to all the BOS members of the department. The board once again discussed on the merits and demerits of having C⁺ lab and C⁺⁺ lab in 1st and 2nd semesters of the first year respectively and finalized that both the labs are necessary for EEE students.
2. Prof. Debapriya Das advised to reduce the topics on the DC Machines in the course 'PEM-I' as they are obsolete and include some design aspects of electrical machines.
3. The external members from industry have advised to introduce numerical relays and Smart Grid topics. In this regard, after several discussions it is resolved to propose to introduce a new course on 'Semi-conductor drives and control automation' in 4th year

1st semester in place of 'Electrical Drives & Traction' by which student can learn industry oriented drives and control automation techniques. Further, it is resolved to include concepts of smart grid in the course 'Energy Control and Management' in 4th year 2nd semester.

4. The committee members decided to continue with the existing curriculum of M. Tech (Control Systems) course with minor changes in syllabus of 'Advanced Drives & Control' in 1st year 1st semester of M. Tech curriculum.

To award degree, a student has to obtain 180 credits. For a student who has obtained all 190 credits by successfully completing required electives, the best 180 credits will be considered for calculating final CGPA. The student is also having the choice of registering for 180 credits only {However, a student cannot opt out of more than 1 open elective and 1 department elective}. In this case the CGPA is calculated for 180 credits.

* Students have to undergo Industrial Training after III Year and during summer vacation

**Viva-voce for Industrial Training will be organized in IV Year – I Sem

A student can also opt for MOOCS {Massive online open courses} at any time during the IV Year B. Tech course in any of the courses offered by Premium institutions such MIT, Stanford etc., and have to provide course completion certificate for award of credits. Compatibility to our system and corresponding marks are evaluated by a departmental committee. But marks and credits will be awarded in IV year- II Sem. only.

Minutes of Board of studies meeting held on 30-03-2019

Agenda:

Review and ratification of B.Tech and M.Tech (Machine design) course structures and B.Tech first year syllabus under autonomous scheme.

Suggestions & Resolutions:

The members of board of studies met on this day in metrology lab, Mechanical engineering department, ANITS to review the course structures (R-19 regulations) and B.Tech I year syllabus under autonomous scheme and suggest suitable modifications wherever necessary. At the outset, the chairman of BOS Prof. P. Nagaraju, welcomed the gathering and initiated the process. The review of the course structure was taken up as an immediate agenda and was done semester wise. The following observations/suggestions were made by the members:

1. It was suggested by the expert members not to include extended contact hours and outside contact hours in the curriculum as they do not carry any credits. But the extended contact hours may be included in the time table to cover the syllabus holistically.
2. It was suggested to transfer **Engineering Workshop** from first semester to second semester in the first year curriculum so as to reduce the number of labs from 3 to 2 in the beginning semester. Hence the total number of credits for first semester is **18.5** and **19.5** for the second semester of the first year.
3. The titles of the following courses were suggested to be modified which was accepted by the board.
 - a) 'Elements of Mechanical Engineering' changed to '**Basics of Mechanical Engineering**'.
 - b) 'Production technology' modified to '**Manufacturing Processes**'.
 - c) 'Production Technology Lab' modified to '**Manufacturing Lab**'.
 - d) 'Metal cutting & Machine Tools' modified to '**Metal cutting, Machine Tools & Metrology**'.
 - e) 'Machine and Production Drawing' modified to '**Mechanical Engineering Drawing**'.
 - f) 'Applied Mechanics Lab' modified to '**Machines and Mechanisms Lab**'.

4. It is strongly observed by the expert members that 'Verbal Aptitude' and 'Quantitative Aptitude' cannot be considered as Mechanical Engineering courses and hence they cannot be part of Mechanical Engineering curriculum. However, if these two courses are required for placement drives, the number of credits shall be limited to 1 credit each. The chairman BOS said that this will be conveyed to the Principal and the decision on this suggestion has to be taken at institution level.
5. The following suggestions were given by the external members with regards to professional electives.
 - a) Dr Ravi Kumar said that the list of professional electives may be reorganised to the maximum possibility such that every professional elective has one subject each from the four specialisations.
 - b) 'Managerial Economics & Financial Analysis' course shall be replaced by 'Supply Chain Management'.
 - c) 'Advanced Materials' course shall be replaced by 'Advanced Mechanics of Materials'.
 - d) 'Rapid Prototyping' course shall be replaced by 'Unconventional Machining'.
 - e) 'Energy Conversion & Management' course shall be replaced by 'Processing of Plastics & Composites'.
6. The expert members opined that since 'Material Science & Metallurgy' is one of the courses being offered by the department, it will be worthwhile to include few experiments on metallurgy in the Mechanics of Solids Lab. This was accepted by the board for implementation.
7. Some minor modifications / suggestions were given by the external members with regards to the syllabus of Engineering drawing, Advanced Engineering drawing & engineering work shop which has to be reviewed.
8. It was suggested by the external members to include a unit on basics of materials instead of principles of steel making. They further suggested to include steel making processes in **Metallurgy and Material science** in the 2nd year 1st semester.

9. Regarding M.Tech course structure external members suggested to include **Theory of Elasticity & Plasticity** as a core subject in the first year first semester. They also suggested to introduce **Research Methodology** as a non-credit course.

The chairman thanked the members of the board for their valuable suggestions. The UG & PG course structures were ratified by the board of studies after including the minor corrections.

The assessment for the subject Biology for Engineers shall be “INTERNAL ONLY” for 100 Marks. The subject will not have external end exam.

* The External examination shall be conducted in two parts each for one and half hour duration under the purview of an internal and external examiner. The first part shall be in the conventional drawing format (manually) and the second using Auto CAD software. In conventional drawing, the student has to attempt two problems out of three questions, which will be purely based on drawing. The second part will consist of two questions, the first being a theoretical question on AutoCAD and the second will be an application of AutoCAD(on computer) to produce a drawing.

** The assessment for Basic Electrical Engineering Lab shall be “INTERNAL ONLY” for 50 Marks.

*** Open electives can be interdisciplinary subjects/Emerging subjects/ MOOCS (will be decided by the department).

**** The industrial training programme should be done by the student at the end of III year II semester. The minimum duration of industrial training should not be less than 15 working days. The evaluation process has to be carried out in the final year first semester.

*****Those who are going for full semester project internship in an industry can opt for 2 MOOCS courses in lieu to 2 courses offered in IV-II. The grade for the MOOCS courses will be awarded based on an evaluation by the departmental committee.
