Department of ECE is organizing one week workshop for III/IV ECE on "Computational thinking and Problem solving skills using C" in DSP lab in association with APSSDC. For section-A during 3rd -8th December, Section-B during 10th -15th December and for Section-C during 18th -22nd December. Registration fee for this workshop is 250/-. Interested students can give their names to the Faculty coordinators on or before 1st December 2018.

Impact analysis of "Programming Challenges using C" workshop from 03/12/2018 to 22/12/2018

WORKSHOP OUTCOMES:(WOs) :

At the end of the workshop students were able to

1. Classify different data types, its sizes, and how to select appropriate data type in C programming
 2. Write C programs, compile and run using Geany IDE.
 3. Write C programs using arithmetic expressions, logical expressions, conditional branching, arrays, loops, structures, unions and pointers in C programming
 4. Write programs to read, write, modify files using C and develop their own library in C
 5. Solve interview questions based on C programming raised from software industries
- About 200 students from Thrid Year ECE were participated and gained hands-on experience in C programming
 - Trainers from AP State Skill Development Corporation (APSSDC), Vijayawada, conducted the workshop
 - During this workshop students written and compiled the C programs that covers the most basic details of C programming (data types , operators, loops, arrays, pointers, etc) to the advanced level concepts (file handling, library development, etc)
 - The trainers supported the students to write error free programs and to compile and verify the results of their programs in Geany IDE, which is an open source C compiler.
 - Also, they were attempted TCS code vita tests to identify their skill levels and the area to be strengthened in order to crack the software company interviews.
