### CONGRATULATIONS

Thank you for your application to study at the University of Liverpool. After careful consideration we are delighted to make you an unconditional offer as a full time student for the degree of PhD in the **Department of Electrical Engineering and Electronics**.

The programme starts on **1 April 2021**. You will be expected to study as a PhD student for 4 years subject to satisfactory academic progress at the end of each year. Your expected end date and last permitted date for submission of your thesis is therefore **31 March 2025**.

This is an unconditional offer as you have met the requirements of entry which are detailed below:

- Master of Technology from Gandhi Institute of Technology and Management
- HEI assessed non SELT IELTS 7.0 (L8.0,R6.5,W6.5,S7.0) TD 11/1/20

### FEES AND LIVING COSTS

The tuition fees for this programme are currently set at £23,650 for the academic year 2020-21. A full list of up-to-date tuition fees can be found here: <https://www.liverpool.ac.uk/study/postgraduate-research/fees-and-funding/fees-and-costs/>

**Total tuition fees will be: £ 23,650per annum**

You will receive a separate letter from the University about your X funding.

This offer is made on the understanding that you qualify as an international (non-EU) student for fees purposes and you are in receipt of financial support for the duration of the programme or will pay your fees yourself at registration. If you have any questions about your eligibility to pay international fees please contact our Fees Assessment Officer: [feestat@liverpool.ac.uk](mailto:feestat@liverpool.ac.uk)

We estimate that a single person will need a minimum of £9,135 per year to cover the cost of living on an annual basis. If you are planning to bring your family with you then your living costs will increase. You can find out more about maintenance amounts on our website:

<https://www.liverpool.ac.uk/studentssupport/international/livingandworking/financialadvice/>

### STUDY COSTS

We want to try and help you prepare for the day-to-day costs of studying. These might include things like photocopying in the library, buying textbooks and specialist equipment or going on field classes. We have put together tables of additional costs for each subject area, including where departments make contributions towards these costs. They are only a guide but should help you with your budgeting. These tables are available here:

<https://www.liverpool.ac.uk/study/postgraduate-taught/finance/study-costs/>

## SCHOLARSHIPS

The University of Liverpool is keen to attract the brightest postgraduate students from across the world, regardless of their financial background. For this reason we offer a number of generous scholarships. The amount awarded for each scholarship can vary, however it would usually cover part of your tuition fee.

Please consult our finance and scholarships webpages: <https://www.liverpool.ac.uk/study/postgraduate-research/funding/> for details about the eligibility criteria for this award and our other scholarships.

## ACCEPTING YOUR OFFER

You should confirm or decline your offer to the PGR Student Experience Team either by email or post. You can find the contact details at the top of this letter.

We will keep in contact with you throughout the application process, usually by email, so please let us know of any changes to your email address.

## UNIVERSITY INFORMATION

Deciding where to study and choosing the right course for you is a big decision. The information below will direct you to the most relevant sections of our website and provide you with information about your programme and studying with us.

The University of Liverpool's Postgraduate Research Team in Student Administration produce a Postgraduate Research Student Handbook for each academic session which contains a wide range of information for research students, from initial registration and induction processes to thesis submission and examination. The Handbook is an electronic publication and can be accessed at: <https://www.liverpool.ac.uk/student-administration/research-students/pgr-handbook/>

## VISAS

Please note that you will need to meet the requirements set by the UK authorities in connection with obtaining a visa for studying in the UK. You can find more information on the UK Visas and Immigration website: <https://www.gov.uk/student-visa>

If you are applying for a Student visa you will be required to pay an immigration health surcharge, further details are available here:

<https://www.liverpool.ac.uk/student-support/international/visas/student-visa-applications-inside-the-uk/health-surcharge/>

Further pre-arrival advice, including details of your Confirmation of Acceptance of Studies (CAS) number, will be sent to you before you commence your studies.

## ACADEMIC TECHNOLOGY APPROVAL SCHEME (ATAS)

Academic Technology Approval Scheme (ATAS) is a requirement of the UK Government. This is a scheme of the UK Government for certifying foreign students from outside the EU for entry into the United Kingdom to study in certain technology-related fields. Having an ATAS clearance certificate is a mandatory requirement for **some** postgraduate students who need an Entry Clearance to study in the UK. If your programme of study requires ATAS you will receive all the details needed to apply for ATAS from your academic department. If you need an ATAS certificate and you do not have one, your entry clearance application will be refused. It is your responsibility to check if the ATAS scheme applies to you.

Before you apply for an ATAS certificate you must be in possession of an offer from a UK higher education institution.

To apply for ATAS and for further information, please visit [www.fco.gov.uk/atas](http://www.fco.gov.uk/atas)

## ORIGINAL DOCUMENTS

The University requires international applicants to provide original academic documents which verify completion of your qualifications. We are required by UK Visas and Immigration (UKVI) to check these documents.

Documents will be checked and verified when you register at the University. For further information please visit our website: <https://www.liverpool.ac.uk/study/postgraduate-taught/applying/before/>

## REGISTRATION

Information regarding the online registration process will be sent to you via email once you have met any offer conditions and confirmed your acceptance of the academic offer. Do remember that we will send much of our correspondence to you by email so please ensure you notify us of any changes to your main email address.

Dear Dr. Prasad,

I am taking the liberty to contact you to see if you would be willing to review this paper for SN Applied Sciences, an interdisciplinary journal published by Springer Nature.

The Journal opened for submissions in 2018 and it covers topics in Physics, Materials, Chemistry, Engineering and Earth & Environmental Sciences. You can find more information about the journal through: <https://www.editorialmanager.com/snas/>  
Submitting your review is a straightforward and simple process and does not claim too much of your time.

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to SN Applied Sciences.

Manuscript Number: SNAS-D-20-04770

Title: Iron effect on Fe<sub>x</sub>CoCrNi high-entropy alloy properties produced via MA-SPS

**Abstract:** Fe<sub>x</sub>CoCrNi (x = 1, 1.3, 1.6) high-entropy alloys (HEAs) were produced via mechanical alloying and spark plasma sintering. All the alloys showed body-centered cubic and face-centered cubic solid solutions after 50 hours of milling. An increase in the iron content was accompanied by an increase in the fraction of the BCC solid solution. The FCC structure was retained even after thermal exposure at 973, 1123, and 1273 K. The increase in iron content led to a decrease in the sigma phase formation temperature and an increase in BCC phase stability. The increase of the iron percentage led to an increase in the material's strength. In addition, the coefficient of friction and weight loss decreased with increasing the iron content. Moreover, the dominant wear mechanism changed from abrasive wear to adhesive wear.

In case you agree to review the article, we kindly ask you to consider the following items in your referee report:

- Summarize the article in a short paragraph. This shows the Editor and the author you have read and understood the research.
- Give your main impressions of the article. Is the paper novel and interesting, with adequate impact and does it contribute to the knowledge base?
- Does the title match the content? Is the abstract self-reliant and complete?
- Is the resolution of the figures of sufficient quality?
- Consider feedback on the presentation of data, the sustainability and reproducibility of any methodology, and any data analysis.
- Are the conclusions supported by the data and the data analysis.
- Raise your suspicions with the Editor if you suspect plagiarism, fraud or have other ethical concerns.
- Is the language written fluently? Inform the Editor if the language written fluently? In case it is not, recommend to the Editor that the author(s) have their paper language edited.
- Finally, even if you think a manuscript is seriously flawed, try to give the author suggestions as to how it might be improved.

In order to keep delays to a minimum, please accept or decline this invitation online as soon as possible.

If you have any questions, please do not hesitate to contact us. We appreciate your assistance.

With kind regards,

Magd Abdel Wahab

Dear Dr. Kondapalli Siva Prasad,

Greetings from Research and Scientific Innovation Society!!

As per your application, you are selected as a Reviewer in the International Journal of Research and Scientific Innovation (IJRSI).

Peer review and reviewers – are at the heart of the academic publishing process. Being a Reviewer of the journal is truly productive, pleasant and in fact prestigious which helps in add-on to the academic world through the ways and guidelines given by experts in the relevant fields. You will be entitled following benefits while working with us as a Reviewer of the journal.

### Bonofits

- You can add your role as a Reviewer for the International Journal of Research and Scientific Innovation (IJRSI) through Art to their CV.
- This work helps to add in and provides a better way to create your identity as a well-known expert in your field and may lead to increased invitations to speak at conferences or demand for invited research of your specialized area.
- You will be among the contributors who will shape and decide the urgent ways as required with changing societal needs.
- You will come across the latest research before everyone else and gives you a position of leadership in your research community.
- Reviewers could enjoy discounts on Article Processing Charges if they publish articles/refer in RSIS Journals.

### Roles & Responsibility

- Providing written, unbiased, constructive feedback in a timely manner.
- Notifying the Editorial Office immediately if unable to review in a timely manner and, if able, providing the names of alternative reviewers.
- Refraining from direct author contact.
- Careful examination of purposes and objectives of the work carried out.
- Correctness of the conclusions and recommendations along with up-to-date references
- Coverage areas of the manuscript in relevance with the scopes of journals

### The acceptance of following terms and conditions confirms your appointment as a Reviewer.

- Your appointment is initially for one year.
- You are expected to carefully observe general policies which may change from time to time based on expansion plans for the improvement in the quality of the journal system.

Dear Leamer,

Congrats for being in the TOP 10 rakers of Academic Writing MOOC.

Please do share your course certificate with me through email or through whatsapp at 9412964614. I will be happy to showcase your certificate in social media if you allow. I wont share your contact details with anyone.

I invite you specially for our tomorrow's event of Academic Writing Team.

Please register for the workshop and share the information with your students, research scholars, faculty members, project fellows and young scientists.
