ABOUT THE COLLEGE

Anil Neerukonda Institute of Technology and Sciences (ANITS), Visakhapatnam was established in 2001 by Anil Neerukonda Educational Society (ANES). ANES works to promote technical and human values through various educational institutions, without any motive for profit. ANITS is located in Sangivalasa village of Bheemuni patnam mandal, about 30 km from the beautiful city of Visakhapatnam. The college has been accredited by NAAC, NBA, UGC and attained autonomous status in the academic year 2015-16. The college has been awarded "Centre of Excellence" by Infosys Technologies in the year 2011 and "National Employability" in 2014 by Aspiring Minds, New Delhi. Undergraduate and postgraduate programs in CSE, IT, EEE, ECE, Mechanical, Civil and Chemical Engineering are being offered at ANITS. With a unique team of governing body, inspiring management, and proficient educators, *ANITS envisions to emerge as a world-class technical institution whose products represent a good blend of technological excellence and the best of human values.*

ABOUT THE DEPARTMENT

The Department of Chemical Engineering was started in the year 2012 and has an efficient group of faculty from IISc, IITs, BITS and other reputed state universities. The department is well equipped with chemical and interdisciplinary laboratories.

The faculty participate actively in the state-of-the-art research and continuously thrive to update knowledge and skills. The same is imparted to the students in classrooms by conducting workshops, seminars and conferences to craft the next generation of engineers. Modern teaching methodologies are implemented to foster an improved classroom environment. *The department envisions to emerge as centre of excellence in Chemical Engineering and attain global recognition in fulfilling the needs of industry and society.*

ABOUT THE WORKSHOP

Indian Chemical Industries contribute to 6% of our GDP (\$ 135 billion). For efficient technological production of chemicals, a chemical engineer requires thorough understanding of the process that comprises of various equipment like reactors, heat exchangers, distillation columns, etc. and numerous instruments like pressure gauges, flow meters etc. **Process Flow and Instrumentation Diagrams** help Chemical Engineers not only to understand the underlying process, but also in evaluating various process controls to optimize the production and to safeguard against possible workplace accidents. This workshop aims at bridging the gap between the academic and industrial approach of studying and understanding the **Process Flow and Instrumentation Diagrams** by providing **hands-on experience** to the fresh chemical engineers to face the challenges when they start working in the industry.

National Workshop on

Process flow and Instrumentation diagrams – An industrial perspective

Press Note

The Department of Chemical Engineering, ANITS, Visakhapatnam, in association with Process Engineers from Hyderabad is organized a two day National Workshop on, "Process Flow and Instrumentation Diagrams – An Industrial Perspective", during 21st and 22nd, Dec., 2018. The inaugural program was graced by Prof. T.V. Hanumantha Rao, Dean Academics, ANITS. The other dignitaries who graced the occasion include, Mr G.Vijay Kumar, Head, Process Engineers Group, Hyderabad, Head of the Department of Chemical engineering, Prof. S.Subba Rao and the Convener of the program, Ms.Suchitra Bandi.

Prof. T.V. Hanumantha Rao, the Dean academics, ANITS insisted upon flexibility to meet the diversified needs of both industry and community for which Chemical engineers need to be flexible for horizontal diversification and vertical expansion. He appreciated the organizers for incorporating Hazard analysis and management which is the need of day

Mr G.Vijay Kumar, the Guest of Honor from Process Engineers Group, narrated his experiences during the initial stages of job. A firm grip on ten equipment of chemical engineering is sufficient to understand and also develop flow sheets that can meet industry needs.

Prof. T.V. Hanumantha Rao, Dean Academics, Dr. Pradasadarao Dean Examinations, ANITS, Head of the Department of Chemical Engineering, Prof. S.Subba Rao, faculty and students of chemical engineering attended the same.

ABOUT ANTS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANTS) was founded by Dr. N. B. R. Prasad, an NRI Philanthropist from USA and Sri V. Thapovardhan, an industrialist, in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the third time. It has been accorded the status of "Centre for Research" for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P by APSCHE. It has also been recognized as "Centre for Excellence" by Infosys.

Today, the institute offers seven B. Tech programme and four M. Tech programme with an annual total intake of about 1100 students. The institute offers amenities like separate hostels for boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda hospital and NRI Institute of Medical Sciences, another educational institution of ANES.

ABOUT THE DEPARTMENT OF ECE

The Department of Electronics and Communication Engineering, established during the academic year 2001-02 with UG program, had an initial intake of 60 and the intake was increased to 180 in the year 2014. M.Tech programme (PG) in Communication Systems with an intake of 18 commenced from 2011-2012. The UG program has been accredited twice by NBA. The department has national and international affiliations with professional bodies like IETE, IEBE, etc. The department has highly qualified and experienced faculty with

specializations in Wireless & Mobile Communications, Signal Processing, Radar & Microwave Engineering, EMI/ EMC, Antennas, Microelectronics & VLSI Design, Image Processing & Computer Vision, Electronic Instrumentation, Digital Electronics, Embedded systems. The department has good infrastructural facilities and has nine full-fledged laboratories equipped with adequate hardware and software. The department has successfully completed one Research Promotion Scheme (RPS) project funded by AICTE. The faculty members are actively involved in research and are publishing papers in reputed national and international conferences/ journals

11th-24th June, 2019

Anil Neerukonda Institute Of Technology And Sciences (ANITS), Department of ECE, has organized AICTE sponsored two week faculty development programme on "ENGINEERING CHALLENGES FOR MAKING DIGITAL INDIA: INTERNET OF THINGS & APPLICATIONS" from 11th – 24th June, 2019. The FDP program received an overwhelming response from participants hailing from various institutes/colleges approved by AICTE and affiliated to Universities such as JNTU Pulivendula, JNTU Vizianagram etc., from across the states of Andhra Pradesh and Telangana. A total of 43 participants were shortlisted for the program, out of whom, 35 were outstation participants and 8 were internal participants. A total of 10 resource persons handled all the sessions, in this FDP, out of whom 7 were from various premium academic institutions & industries across India and 3 were from ANITS (Preapproved by AICTE). In order to give practical exposure, a majority of the theory sessions were followed by hands-on sessions.

This program aimed to introduce the participants to the amazing world of IoT and its fascinating applications. IoT is the idea of making devices and objects smarter by linking them to the internet. This technology frontier (IoT) with immense engineering applications is the need of today's industry and academia. This FDP served as a platform to create awareness among participants by engaging them in all aspects of IoT, including components, technologies, products, Application, consumer usage and societal impact. Day wise details of happenings reported as follows.

Day-1:

The FDP was inaugurated on 11th June 2019 with key note speaker Mr. Bapuji.K, C. E. O, Appleton Innovations pvt ltd., and Dr. V. Rajya Lakshmi, Professor & HOD along with Co-coordinators Dr. S. Srinivas and Mr. N.Srinivasa Naidu, delivering their speeches.

On this occasion, the Principal recounted all the previous academic events organized by the institute and the achievements of the alumni. Dr. V. Rajya Lakshmi, Professor & HOD welcomed all the dignitaries

and delegates. In her welcome speech, she highlighted the importance and objectives of organizing this faculty development program. She explained how IOT is penetrating every aspect of our lives.

A total of 58 teams have registered for the even. The size of the team varies from 2-4.

The first round was conducted on 10th February 2019. The first round is an online round where all the participating teams are given two cases to which they have to give their best possible solution.

The cases are as below:

Case1:

BEAT HARMONY ---- BEAT HARMONY Television is a satellite and cable television channel operating in the international market. The firm is owned by an American company and was launched In 1981 in the American market. Initially, the main content aired by the firm was light popular HARMONY suited to people aged between 18 and 35 years. The firm gradually added more content suited to people of different ages, including children and elders. In 1987, the company started expanding into the global market, starting with Europe. After achieving significant market growth in the European market, the company expanded its operations into the Middle East in 2007. The Arab culture is the biggest challenge that BEAT HARMONY faced when expanding into the Middle East. The Arabic Culture and the Challenges it poses to BEAT HARMONY --- The Arabic culture is unique since it is strongly attached to religion. Although there are a few other religions in the Arabic world, most Arabs follow the Islamic religion. Consequently, most Arabs hold onto strict moral values and norms. People in most of the countries that make up the Arabic world embrace a conservative culture. The components of the Arabic culture, therefore, have significant variations from the components of the western culture. Exposure of most parts of the woman's body is tolerated in the Western culture, but not in the Arabic culture. As such, the Arabic culture is conservative while the Western culture is explicit. Just like in other cultures, the Arabic culture is made up of numerous sub-cultures. For instance, the culture of the people of Saudi Arabia has some differences from the culture of the citizens of the United Arab Emirates and Qatar. Due to the conservative culture that is prevalent in the Arabic nations, most Arabs are likely to perceive such content as being offensive. Further, BEAT HARMONY is faced with the challenge of coping with the different subcultures existing in the Arab world.

Case 2:

EMPLOYEE OVER TIME ----- Neon Tech is an IT based service company whose turn-over is 120 crores. It was initially established in Bangalore. The company deals with small establishments which require software that help them to maintain their Web Development, Customer data, keeping record of their Financial Transactions, Infrastructure Establishment, Network Securities and Local Communication Services. Neon Tech has already signed a contract with Surya Engineering Solutions for Web Development Service. The contract was made for 4 crores with the condition to deliver the product by 31st December 2018. The contract was signed on 1st July 2018. The working hours of the employees were 9 hours a day starting from 9am in the morning to 6pm in the evening. Half way through the completion of the project Neon Tech was offered with another much awaiting project in the Government Sector. Getting projects in the Government Sector is one of the major accomplishments for any regional company. But the schedule of the workers may turn cumbersome as the project period for both is alike and the employees need to work overtime in order to meet the deadlines. The latter one cannot be neglected as once a project in the Government is successfully delivered, then the value of the company will be drastically changing, and market may increase. The company is not in position to pay overtime to the employees while the employees are also not ready to work without any incentives. The first contract should not be broken and the latter one should not be denied while the existing employees should work overtime. Neon Tech is facing challenge in coping up with the situation and keep their employees in tact while boosting them to deliver their project in stipulated time. Device a strategy keeping in mind the reputation of the company after the delivery of the Government project.

By the 11th February morning submissions were closed and by 13th february evening all the responses were studied and a total of 23 teams were shortlisted for the second phase of BCOMBAT.

A total of 58 teams have registered for the event. The size of the team varies from 2-4. The total details of the registered teams are as below:
