About ANITS

Anil Neerukonda Institute of Technology and Sciences (ANITS) was founded by Dr. N. B. R. Prasad, an NRI Philanthropist from USA and Sri V. Thapovanhan, an industrialist, in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the third time. It has been accorded the status of "Centre for Research" for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P by APSCHE. It has also been recognized as "Centre for Excellence" by Infosys.

Today, the institute offers seven B. Tech programme and four M. Tech programme with an annual total intake of about 1100 students. The institute offers amenities like separate hostels for boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda hospital and NRI Institute of Medical Sciences, another educational institution of ANITS.

About the Department

The Department of Electrical and Electronics Engineering (EEE) was started in the year 2001-02 with an intake of 40 students and presently with an intake of 180 students. The UG program in EEE department was accredited by NBA in July 2008 for three years and was re-accredited in the year 2013 and 2016 respectively. A PG course with CONTROL SYSTEMS specialization is also being offered by the department with an intake of 18. The department was granted recognition as a research center to provide guidance to full time / part-time Ph.D. scholars. Student chapters like IEEE (I), ISTIE, and ISHRAE are active in the department.

Objective of the STTP

This STTP is aimed to impart knowledge about operation and control of restructured power systems, especially in the scenario of increasing penetration of renewable energy in the total energy mix. Power industry restructuring, around the world, has a strong impact on Asian power industry as well. Indian power industry restructuring with a limited level of competition, since 1991, has already been introduced at generation level by allowing participation of Independent Power Producers (IPPs). The new Electricity Act 2003 provides the provision of competition in several sectors. The basics of restructured power system modeling and simulations are very essential in order to comprehensive study and understanding of Electrical Engineering. Due to recent advancements in areas of renewable energy sources, Microgrid, and Distributed Generation, it is desirable that we must be aware ourselves to the fundamentals of latest technologies of restructured models and simulation with emphasis on congestion management. This programme offers a wide and comprehensive practical based approach to the study of restructured power system modeling and analysis.

ABOUT THE COLLEGE

Anil Neerukonda Institute of Technology and Sciences (A) (ANITS), Visakhapatnam was established in 2001 by Anil Neerukonda Educational Society (ANES). ANES works to promote technical and human values through various educational institutions, without any motive for profit. ANITS is located in Sangivalasa village of Bheemunipatnam mandal, about 30 km from the beautiful city of Visakhapatnam. The college has been accredited by NAAC, NBA, UGC and attained autonomous status in the academic year 2015-16. The college has been awarded "Centre of Excellence" by Infosys Technologies in the year 2011 and "National Employability" in 2014 by Aspiring Minds, New Delhi. The college offers various undergraduate and postgraduate programs in CSE, IT, EEE, ECE, Mechanical, Civil and Chemical Engineering. With a unique team of governing body, inspiring management, and proficient educators, ANITS envisions to emerge as a world-class technical institution whose products represent a good blend of technological excellence and the best of human values.

ABOUT THE DEPARTMENT

The Department of Chemical Engineering was started in the year 2012 and has an efficient group of faculties from IISc, IITs, BITS and other reputed state universities. The department is well equipped with Chemical and interdisciplinary laboratories. The faculty participate actively in the state-of-the-art research and continuously thrive to update knowledge and skills. The same is imparted to the students in classrooms by conducting workshops, seminars and conferences to craft the next generation of engineers. Modern teaching methodologies are

implemented to foster an improved classroom environment. The department envisions to emerge as centre of excellence in Chemical Engineering and attain global recognition in fulfilling the needs of industry and society.

ABOUT THE WORKSHOP

MATLAB is an indispensable asset for scientists, researchers and engineers. The richness of MATLAB computational environment combined with an integrated development environment and straight forward interface, tool kits, and simulation and modelling capabilities creates research and development tool that has no equal platform. MATLAB is a high-performance language for technical computing. It integrates computation, visualization and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation.

Typical uses include: Math and computation, Algorithm development, Modelling, Simulation and prototyping, Data Analysis, exploration and visualization, Scientific and engineering graphics and Application development including Graphical User Interface Building. This workshop mainly comprises with a hands-on approach and focus on problem solving with the powerful MATLAB computing tool. The workshop is designed for students with only a basic college algebra and computer background. Numerous examples are drawn from a range of engineering disciplines, demonstrating MATLAB applications to a broad variety of problems.

ABOUT ANITS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS) was founded by Dr. N. B. R. Prasad, an NRI philanthropist from USA and Sri V. Thapovantham, an industrialist, in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate 3.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by SAAC with "A" and by NBA for the third time. It has been accorded the status of "Centre for Research" for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P by APSCHE. It has also been recognized as "Centre for Excellence" by Infosys.

Today, the institute offers seven B. Tech programmes and four M. Tech programmes with an annual total intake of about 1100 students. The institute offers amenities like separate hostels for boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda hospital and NRI Institute of Medical Sciences, another educational institution of ANES.

ABOUT THE DEPARTMENT OF ECE

The Department of Electronics and Communication Engineering, established during the academic year 2001-02 with UG program, had an initial intake of 60 and the intake was increased to 180 in the year 2014. M.Tech programme (PG) in Communication Systems with an intake of 18 commenced from 2011-2012. The UG program has been accredited twice by NBA. The department has national and international affiliations with professional bodies like IETE, IEEE, etc. The department has highly qualified and experienced faculty.

specializes in Wireless & Mobile Communications, Signal Processing, Radar & Microwave Engineering, EMI/EMC, Antennas, Microelectronics & VLSI Design, Image Processing & Computer Vision, Electronic Instrumentation, Digital Electronics, Embedded systems. The department has good infrastructural facilities and has nine full-fledged laboratories equipped with adequate hardware and software. The department has successfully completed one Research Promotion Scheme (RPS) project funded by AICTE. The faculty members are actively involved in research and are publishing papers in reputed national and international conferences/journals.

ABOUT THE PROGRAMME

Well connected nations are well served nations and hence connecting India will provide the much needed bridge between urban and rural India. The era of IoT is pegged to be the next big transformation set to revolutionize our lives. This eco-system of interconnected things and technology results in a wide range of solutions for almost every aspect of human life and endeavor. This FDP serves as a platform for academicians, researchers and industry experts to interact on cutting edge technologies in IoT.

ABOUT ANITS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS) was founded by Dr. N. B. R. Prasad, an NRI Philanthropist from USA and Sri V. Thapovantham, an industrialist, in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the third time. It has been accorded the status of 'Centre for Research' for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked 41-4th among the private engineering colleges in A.P. by APSCHE. It has also been recognized as 'Centre for Excellence' by Infosys.

Today, the institute offers seven B. Tech programmes and four M. Tech programmes with an annual total intake of about 1100 students. The institute offers amenities like separate hostels for boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda hospital and NRI Institute of Medical Sciences, another educational institution of ANES.

ABOUT THE DEPARTMENT OF ECE

The Department of Electronics and Communication Engineering, established during the academic year 2001-02 with UG program, had an initial intake of 60 and the intake was increased to 150 in the year 2014. M.Tech program (PG) in Communication Systems with an intake of 18 commenced from 2011-2012. The UG program has been accredited twice by NBA. The department has national and international affiliations with professional bodies like IETE, IEEE, etc. The department has highly

qualified and experienced faculty with specializations in Wireless & Mobile Communications, Signal Processing, Radar & Microwave Engineering, EMF/EMC, Antennas, Microelectronics & VLSI Design, Image Processing & Computer Vision, Electronic Instrumentation, Digital Electronics, Embedded systems. The department has good infrastructural facilities and has state-of-the-art laboratories equipped with adequate hardware and software. The department has successfully completed one Research Promotion Scheme (RPS) project funded by AICTE. The faculty members actively involved in research and are publish papers in reputed national and international conferences/journals.

ABOUT THE PROGRAMME

Electronics and communication engineering is an emerging and promising discipline in shaping future research and development activities in both Academia and Industry. This 3 Day Workshop on Antenna Design Using High-Frequency Structure Simulator (HFSS) is organized to bring together researchers from academics, scientific labs and engineering industries under one roof to share their expertise. The workshop invites researchers, faculty, post-graduate and undergraduate students to learn and work on the following modules:

- > Basic Features
- > Boundary conditions
- > Excitation Features
- > Microstrip patch antennas
- > Reconfigurable Antennas
- > Antenna Array Design

ABOUT ANITS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS) was founded by Dr. N. B. R. Prasad, an NRI Philanthropist from USA and Sri V. Thapovardhan, an industrialist in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the third time. It has been accorded the status of "Centre for Research" for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P. by APSCEE. It has also been recognized as "Centre for Excellence" by Infosys.

ABOUT THE DEPARTMENT OF ECE

The Department of Electronics and Communication Engineering, established during the academic year 2001-02 with UG program, had an initial intake of 60 and the intake was increased to 180 in the year 2014. M.Tech program (PG) in Communication Systems with an intake of 18 commenced from 2011-2012. The UG program has been accredited twice by NBA. The department has national and international affiliations with professional bodies like IETE, IEEE, etc. The department has highly qualified and experienced faculty with specializations in Wireless & Mobile Communications, Signal Processing, Radar & Microwave Engineering, EMI/EMC, Antennas, Microelectronics & VLSI Design, Image Processing & Computer Vision, Electronic Instrumentation, Digital Electronics, Embedded systems.

Workshop Objective

This workshop strives to open a portal towards the world of microcontrollers through one of the first ones to grace the market. The Intel masterpiece accelerated the use of microcontrollers in embedded systems all over the world and is an inevitable step in understanding the basics of what constitutes a microcontroller. This course is designed to pave the way for better understanding of the 8-bit Microcontroller thereby leading to a sound base in microcontrollers. Focus is primarily allotted to discussion and hands-on training on on-chip peripherals of 8-bit Microcontroller.

Workshop Contents:

- General Discussion & Overview of Embedded Systems
- 8-bit Microcontroller: Architecture & Pin Diagram
- Introduction to KEIL Cross-Compiler & its features
- Mapping 8-bit Microcontroller Architecture to Embedded C
- Timer, Interrupts & Serial Programming Techniques

Organized by ECE Dept., ANITS

Two days online Workshop on "EMBEDDED SYSTEM DESIGN on 8-bit MICROCONTROLLER USING KEIL (IDE)" was organized by the department of Electronics and Communication Engineering (ECE) for the Students and faculties from various colleges across the country. Mr.N.Ramkumar,Assistant Professor/ECE,ANITS acted as a resource person for both the days(29.05.2020 & 30.05.2020) .About 291 members registered out of which 128 members were participated and gained hands-on experience on Microcontroller and Embedded C Programming using KEIL(IDE) . The program was conducted through GoTo meeting online platform

Prof Dr. V.Rajyalakshmi,HOD/ECE was inaugurated the session and asked the feedback in the end of the session. Faculties and Students were given their valuable feedback orally.

After end of the session we have conducted Quiz and also received online feedback about the workshop. Few samples of feedback questions and participants feedback

1. What aspects of this course were most useful or valuable?
 - Hands-on sessions as well as the clear introduction.
 - The course has the explanation from basics even any other branch student who didnt have any idea about 8051 can understand these two days classes. And even the app installation guidelines also given by the faculty
2. What was the interesting thing you have learned from this workshop?
 - Embedded systems and programming in the keil & proteous software
 - Learned about the 8051 programming and coding and I'm interested in the real time applications shown as examples by the faculty

ABOUT ANITS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS) was founded by Dr N B R Prasad, an NRI Philanthropist from USA and Sri V Thapovadhan, an industrialist, in memory of Late Anil Neerukonda, son of the Chairman Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 120 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the third time. It has been accorded the status of "Centre for Research" for guiding PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P by APSICHE. It has also been recognized as "Centre for Excellence" by Infosys.

Today, the institute offers seven B. Tech programmes and four M. Tech programmes with an annual total intake of about 1100 students. The institute offers amenities like separate hostels for

boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda Hospital and NRJ Institute of Medical Sciences, another educational institution of ANES.

ABOUT THE DEPARTMENT OF ECE

The Department of Electronics and Communication Engineering, established during the academic year 2001-02 with UG program, had an initial intake of 60 and the intake was increased to 180 in the year 2014. M.Tech programme (PG) in Communication Systems with an intake of 15 commenced from 2011-2012. The UG program has been accredited twice by NBA. The department has national and international affiliations with professional bodies like IETE, IEEE etc. The department has highly qualified and experienced faculty with specializations in Wireless & Mobile Communications, Signal Processing, Radar & Microwave Engineering, EMI/ EMC, Antennas, Microelectronics & VLSI Design, Image Processing & Computer Vision, Electronic Instrumentation, Digital Electronics, Embedded systems. The department has good infrastructural facilities and has nine full-fledged laboratories equipped with adequate hardware and software. The department has successfully completed one Research Promotion Scheme (RPS) project funded by AICTE. The faculty members are actively involved in research and are publishing papers in reputed national and international conferences/journals.

ABOUT ANITS

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS) was founded by Dr. N. B. R. Prasad, an NRI philanthropist from USA and Sri V. Thapovanthan, an industrialist in memory of Late Anil Neerukonda, one of the Chairmen Dr. N. B. R. Prasad. Its humble journey started in 2001 with an intake of 220 students into four undergraduate B.Tech programs. Within 14 years of its establishment, the institute has registered phenomenal growth and has been accredited by NAAC with 'A' and by NBA for the first time. It has been accorded the status of "Centre for Research" for granting PhD scholars and permanently affiliated to Andhra University. It has achieved autonomous status in 2015. Further, the institute has been currently ranked as 4th among the private engineering colleges in A.P. by APSCHE. It has also been recognized as "Centre for Excellence" by Infosys. Today, the institute offers seven B. Tech programs and four M. Tech programs with an annual total intake of about 1160 students. The institute offers amenities like separate hostels for boys and girls, indoor and outdoor games, transport A/C Buses covering all the major locations of Visakhapatnam and medical aid provided by Anil Neerukonda hospital and NRI Institute of Medical Sciences, another educational institution of ANES.

Objective of Seminar

Techniques for joining dissimilar materials, particularly metals and polymers, are becoming increasingly important in the manufacturing of hybrid structures and components for various engineering applications.

The recent drive towards lightweight construction in the aerospace and automotive industries has led to increased exploitation of lightweight metallic and non-metallic materials. Hence, suitable joining methods are being identified in order to join these dissimilar materials and to integrate them in engineering structures.

Understanding of the various joining technologies that exist for multi-material, metal-to-metal, polymer to polymer, and metal-to-polymer hybrid structures is consequently important. Hence this programme intends to involve the latest innovations and developments in joining techniques.

It is also intended to understand the intricacies of joining methods, testing of joints and specific problems involved.

The thrust areas of research in the field of joining dissimilar materials will also be exemplified for the benefit of researchers.

He said that with the increasing demand for materials with elevated properties, the joining techniques of such highly branded materials will pose extra difficulty. It is therefore important to conduct parallel research on advanced joining techniques of dissimilar materials. With the ever increasing demand for lighter materials in automobile and aircraft industry, the research in this field has taken higher dimensions.

The chief guest of the programme stressed on the importance of research in joining techniques and said that exemplary work is being done in this field as joining of dissimilar materials is being used in the fabrication of pressure vessels, heat exchangers, automobiles, aircrafts etc. The convenor of the programme said that the resource persons for the two day programme are from both R&D organizations & Premier academic institutions and therefore the participants should take advantage of the programme to improve their knowledge in this field. The programme is bound to create new ideas of research if one shows inclination towards it.
